**Empowering the Future of Trading &
Blockchain.**

www.nexaglobal.world

ABOUT US

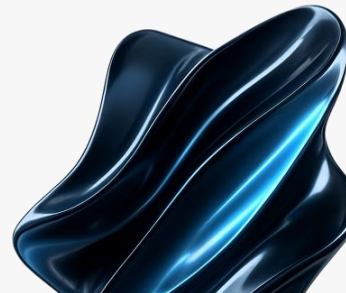

NEXA GLOBAL is an international trading and blockchain platform specializing in digital asset management. We create tailored wealth strategies by leveraging:

- ❖ AI-driven trading algorithms and analytics
- ❖ Advanced blockchain integration and decentralized systems
- ❖ Global opportunities in crypto, NFTs, and trading markets

Our approach delivers:

- ❖ Predictable, sustainable returns
- ❖ Ability to adapt in volatile markets
- ❖ Transparent and secure trading solutions
- ❖ Long-term wealth creation opportunities

EVOLUTION WITH CRYPTO AI

Crypto redefined the economics of value transfer, liquidity, and ownership.

AI transformed prediction, automation, and decision velocity.

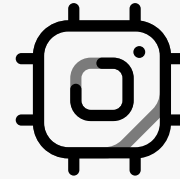

Nexa fuses crypto-native rails with AI-first trading to unlock next-generation financial access.

www.nexaglobal.world

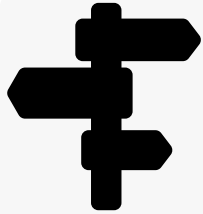

AREAS OF EXPERTISE

Global expansion: International market reach with compliant, scalable operations to establish leadership in asset management.

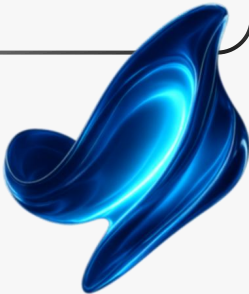

Technology: Automation, latency-sensitive execution, and AI-driven risk analysis to optimize speed, precision, and cost.

Diversification: Multi-strategy portfolio design across AI trading, arbitrage, venture exposure, and digital assets for stability.

Reliability: Security, transparency, and sustainable growth as core design principles (audits, monitoring, governance).

BUSINESS MODEL

Arbitrage strategies:

Capture cross-venue inefficiencies and price dislocations with low market-beta exposure.

Automated trading:

Algorithmic operations minimize human latency and bias with 24/7 execution coverage.

Scalping strategies:

Short-horizon microstructure edge with strict risk caps and smart order routing.

Portfolio diversification:

Blend of momentum, mean-reversion, arbitrage, and conservative hedges to optimize risk-adjusted returns.

WHO IS FOUNDER OF NEXA?

Andrew Clifford is the driving force behind NEXA GLOBAL's rise as a premier international trading and blockchain platform. With a background in financial technology and strategic asset management, he brings over two decades of leadership experience to the helm. Known for his analytical precision and global perspective, Andrew has shaped NEXA GLOBAL's mission to deliver secure, personalized wealth strategies through cutting-edge blockchain infrastructure.

His expertise spans digital asset ecosystems, cross-border finance, and regulatory innovation, making him a trusted figure among institutional investors and fintech pioneers alike. Under his leadership, NEXA GLOBAL continues to redefine the future of digital finance — combining transparency, agility, and long-term value creation.

NEXA BLOCKCHAIN

- ❖ Nexa is the world's most secure, scalable, and affordable blockchain network.
- ❖ Engineered for Web 3.0 and the decentralized internet with proprietary Nexa Mesh consensus.
- ❖ Merges Delegated Proof of Stake (DPoS) with AI-enhanced verification to block malicious activity.
- ❖ Decentralized governance ensures global node agreement and trust lessness.

WHY CHOOSE NEXA DEFI?

Smart Liquidity : Funds deployed into vetted DeFi protocols on Nexa, Ethereum, and Solana.

Dynamic Profit Sharing : Transparent yield distribution with zero hidden fees or commissions.

Enterprise-Grade Security : Secured by audited smart contracts and multi-layer key management.

Full Transparency : Real-time portfolio dashboard with on-chain proofs and AI-driven analytics.

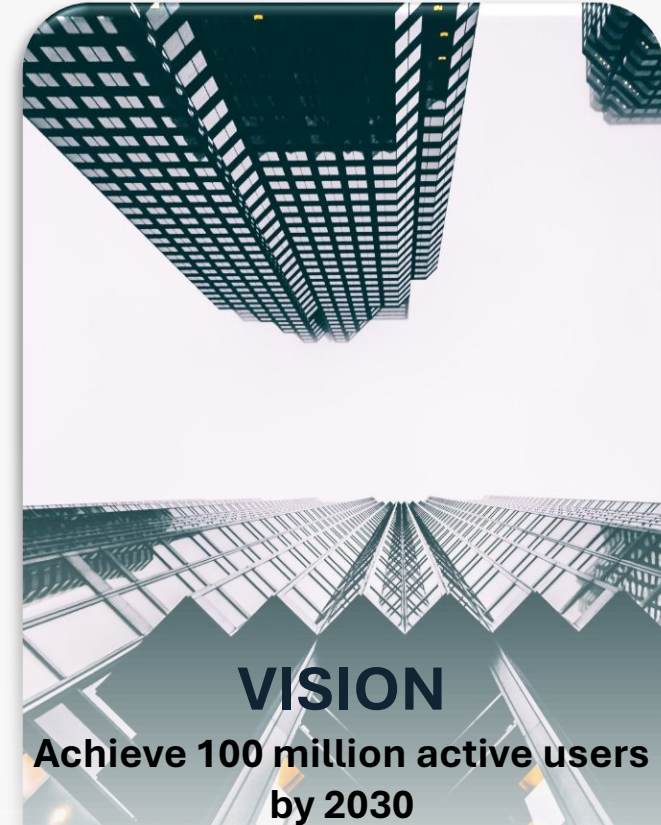

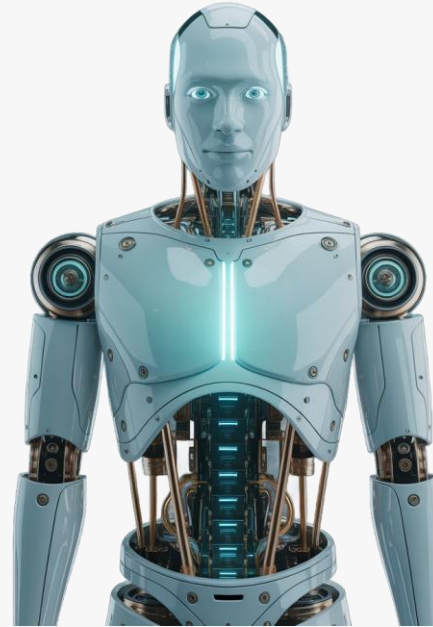

Community Governance : Nexa DAO voting rights that let users steer protocol upgrades.

MISSION AND VISION

At Nexa Global, our mission is to enable a truly borderless financial ecosystem where individuals and institutions can access cutting-edge trading and wealth-creation tools without barriers. We harness the power of AI-driven strategies and decentralized finance to deliver secure, transparent, and tailored solutions that bridge global markets.

Our vision is to empower 100 million users by 2030 to achieve financial freedom through a seamless fusion of AI innovation and blockchain technology. We aspire to redefine industry standards for trust, performance, and accessibility, positioning Nexa Global as the definitive benchmark in fintech excellence. Ultimately,

HOW DOES NEXA QUANTUM AI OUTPERFORM MARKETS?

NEXA QUANTUM AI SERIES TRADING ALGORITHM

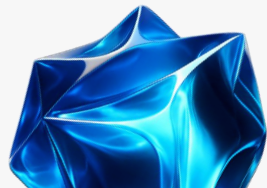

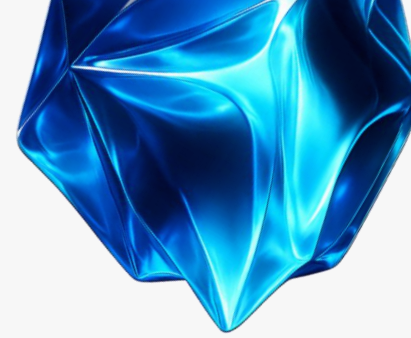

Consistent Returns · Low Risk · Predictable
Powered by Quantum Computing & AI-Driven Execution.

EL CAPITAN

El Capitan is the world's fastest supercomputer, developed by Lawrence Livermore National Laboratory in collaboration with Hewlett Packard Enterprise and AMD. Designed to exceed 2 exaflops of peak performance, it marks a historic leap into the exascale era—where computing power reaches quintillions of calculations per second. Built on HPE's Cray Shasta architecture and powered by AMD's EPYC CPUs and MI300A APUs, El Capitan combines CPU and GPU capabilities in a unified chip, delivering unmatched speed, efficiency, and scalability. To support the U.S. Department of Energy's Stockpile Stewardship Program, ensuring the safety and reliability of the nuclear arsenal without live testing. Beyond defense, El Capitan accelerates breakthroughs in artificial intelligence, climate modeling, fusion energy, drug discovery, and global security. Occupying over 7,500 square feet and utilizing advanced liquid cooling systems, El Capitan is not just a technological marvel—it's a strategic asset.

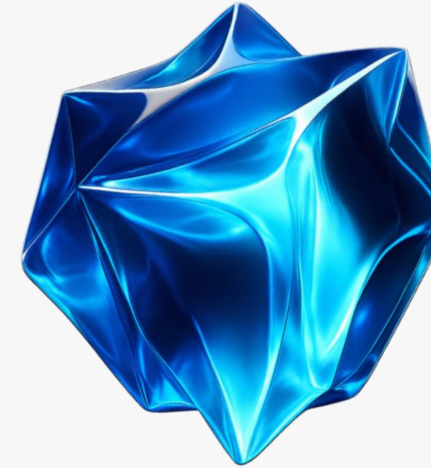

FUND MANAGERS

The Vanguard Group

Investment Management Company

The Vanguard Group, Inc. is an American registered investment adviser founded on May 1, 1975, and based in Malvern, Pennsylvania, with about \$10.4 trillion in global assets under management as of January 31, 2025.

HOW NEXA GENERATES PROFIT

1. Harvest market data: Price Patterns, Fundamental News, Cyclical Events, Technical Indicators.
2. Perform Monte Carlo stochastic simulations on quantum hardware.
3. Identify the market's highest-probability next moves.
4. Deploy 5 distinct AI trading strategies for portfolio diversification.
5. Automated AI executes orders and performs cross-market arbitrage for optimal returns.

Who is using Quantum?

Tech Giants

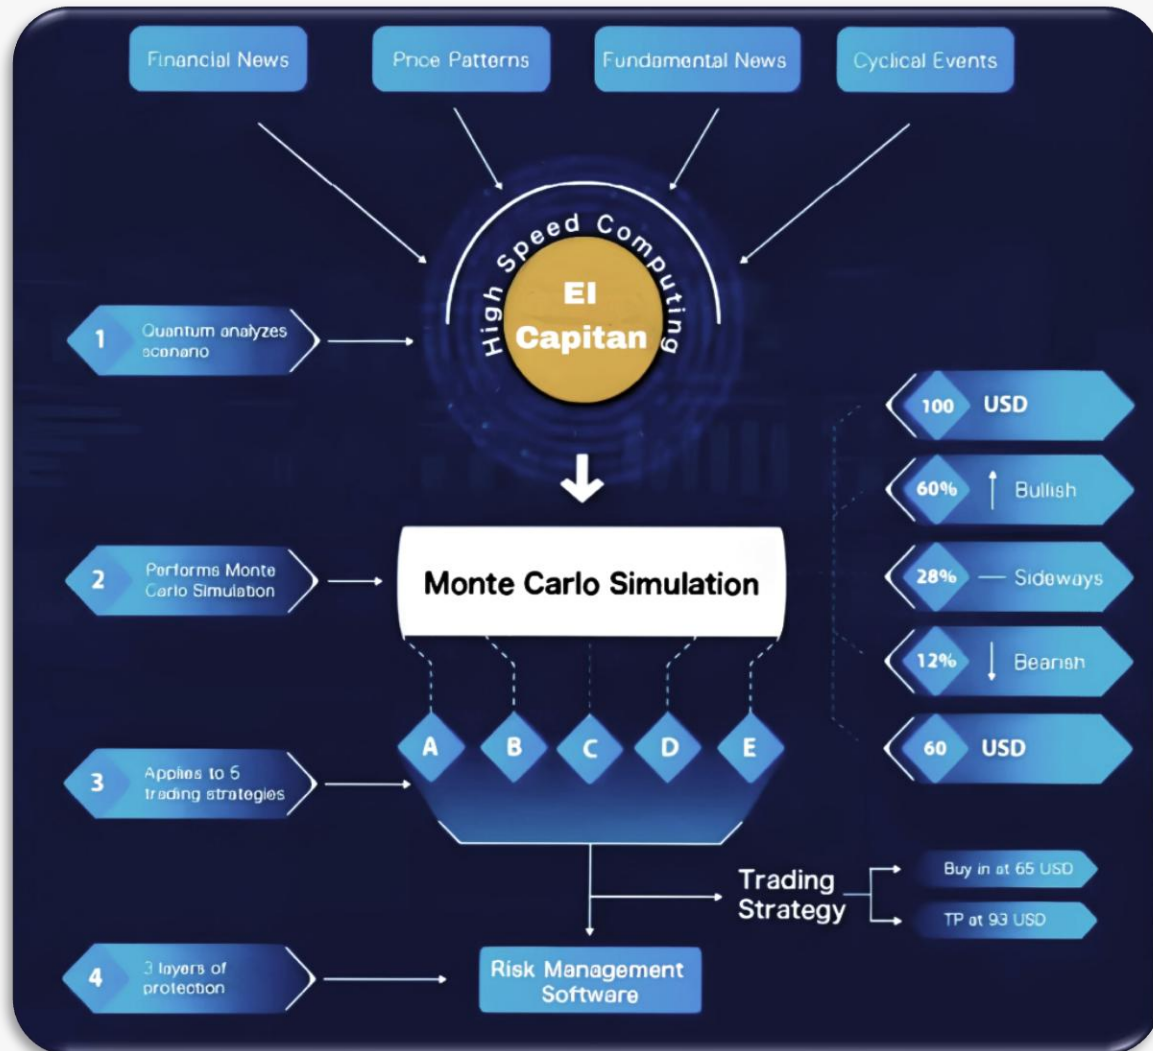

Alibaba Group
阿里巴巴集团 HUAWEI

Financial Firms

 BARCLAYS CaixaBank
J.P. Morgan

The financial industry right now has become increasingly transformed by Quantum.

HOW DOES F1 GENERATES PROFIT

❖ Use quantum computers to read massive amount of data (fundamental & technical)

❖ Carry out Monte Carlo stochastic simulation calculation.

❖ Calculate the market's highest probability next move.

❖ Use 5 Different trading strategies to generate a highly diversified portfolio return.

❖ Artificial Intelligence places orders and does market arbitrage for customers.

QUANTUM SUPERCOMPUTER VS CLASSIC COMPUTERS

- ❖ Quantum systems compute up to 35,500× faster than classical computers.
- ❖ Market simulations requiring years on classical hardware finish in seconds on quantum.
- ❖ Classical bits store 0 or 1; qubits hold 0 and 1 simultaneously, unlocking exponential processing power.
- ❖ El Capitan reduces 10,000 years of workload into 200 seconds of time lap.

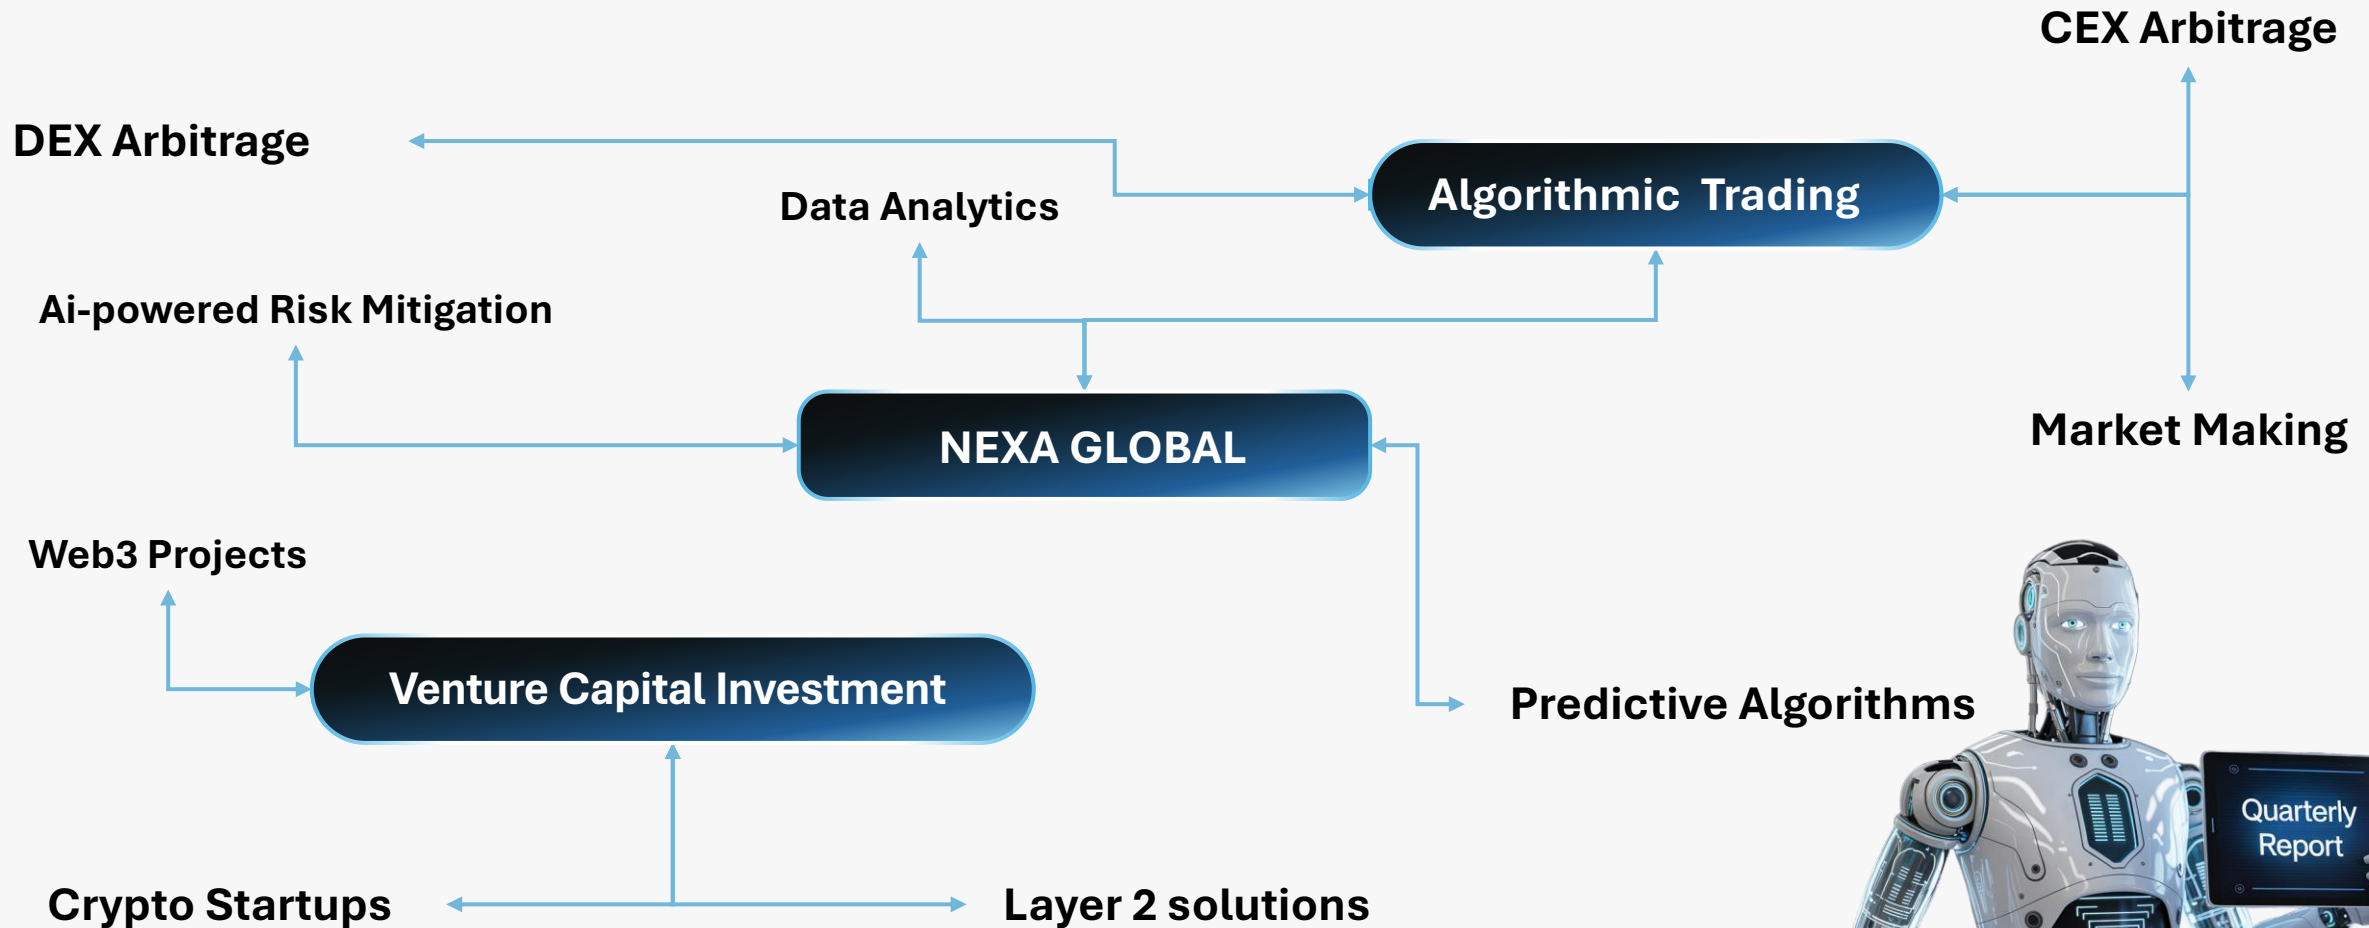

CLASSIC COMPUTER

REVENUE STREAM

Investment Plans:

Annual returns ranging from 132% to 792%, based on cycle duration and compounding..

Leadership Rewards :

Bonuses from **\$20 to \$10,000**, tied to team volume and rank achievements.

Affiliate Program :

Earn up to **72% commission** across all referral tiers.

Reinvestment Plan :

Up to **1% returns** through seven levels of compounding cycles.

TERMS & CONDITION

1. If any user withdraws their principal amount **within 20 days**, then **15% of the principal amount will be deducted.**

2. If a user continues for more than 20 days:

- They will receive daily profit between 0.5% to 6%.
- If they keep the principal invested, their profit will continue.

3. Cycle Condition:

- After completing the first 20-day cycle, the user automatically enters the next 30-day cycle.
- After completing 30 days, they enter the next 40-day cycle, and so on.
- Each cycle carries a different percentage (as per compounding chart).
- Minimum withdrawal – \$5
- Instant Deposit & Instant withdrawal – USDT (BEP20)
